

At **Int4** we're focused on saving time and money while developing SAP interfaces. Our team consists of SAP experts (including an SAP mentor) who actively publish books, articles that contribute to the development of this ERP system. Working with us means being able to develop your professional career and spread your wings by cooperating with some of the best specialists in our business. We work globally and our clients are based in Switzerland, Great Britain, Germany, the Netherlands, Finland and the USA.

Our company culture is defined by three values: balance, competences and relationships. We believe that planning and completing the most important tasks first is the key to be effective at work. Moreover, we strive to master our skills within the so called "Int4 Academy" where everyone can share knowledge with colleagues. Team trust and teamwork are visible as soon as you enter our workplace.

At the moment we're looking for a:

Junior SAP Integration Consultant

Working at this position is connected with gaining skills such as: evolving SAP integration solutions and developing software. As soon as you master all needed abilities, you'll be able to take part in projects for some of the biggest, international companies. Among your daily tasks will appear: an analysis of business needs, technical implementation of suggested solutions, presenting your work results' as well as conducting workshops. You'll also have a chance to use your English skills on a daily basis.

Your technical and soft skills:

- Knowledge regarding the rules of developing software in any programming language
- Being familiar with databases and SQL language
- Creativity, engagement and so called can-do attitude
- Fluent English

We'd like to cooperate with either University graduates or students (following courses would be a plus: information technology, electronics, economical information technology, telecommunication).

Nice to have:

- Basic familiarity of ERP systems

Joining us means:

- Taking part in projects dedicated to international enterprises, travelling to different parts of the world,
- Having a chance to learn from some of the best specialists in SAP business,

- Gaining experience in programming using ABAP language and being involved in SAP Process Orchestration, HANA as well as the development of the IFFT tool that automatically tests integration,
- Expanding knowledge with regards to ERP systems and business processes that are implemented in many different companies.
- Having an opportunity to possess both technical and modular SAP certificates

We're also happy to pay for a company flat (2 months) for employees outside of Poznań.

Interested? Feel free to apply and in case of any questions, just drop us a line careers@int4.com.
