

At **Int4** we're focused on saving time and money while developing SAP interfaces. Our team consists of SAP experts (including an SAP mentor) who actively publish books, articles that contribute to the development of this ERP system. Working with us means being able to develop your professional career and spread your wings by cooperating with some of the best specialists in our business. We work globally and our clients are based in Switzerland, Great Britain, Germany, the Netherlands, Finland and the USA.

Our company culture is defined by three values: balance, competences and relationships. We believe that planning and completing the most important tasks first is the key to be effective at work. Moreover, we strive to master our skills within the so called "Int4 Academy" where everyone can share knowledge with colleagues. Team trust and teamwork are visible as soon as you enter our workplace.

At the moment we're looking for a:

### **Senior SAP Integration Consultant**

Working at this position is connected with taking part in implementation, support or development projects using the following integration technologies: SAP PI/PO, AIF, IDOC, PROXY or CPI. You'll have a chance to cooperate with international enterprises and your role will be to be both business as well as technical consultant. You'll be speaking English on a daily basis.

#### **Your technical and soft skills:**

- 2-4 years of experience in SAP integration technologies such as SAP PO/PI, AIF, CPI etc and proven successes
- Advanced knowledge of ABAP programming
- Creativity, engagement and solution-focused approach to work
- Fluent English

#### **Nice to have:**

- Experience in programming using Java language (or any other)
- Familiarity with S4HANA, SAP Leonardo

#### **Joining us means:**

- Taking part in projects dedicated to international enterprises, travelling to different parts of the world
- Having chance for actively publishing articles and books in SAP Press
- Working on our product **Int4 IFTT** - an Automated Testing Software dedicated for SAP application interfaces
- Having an opportunity to contribute to the courses, materials on openSAP

We're also happy to pay for a company flat (2 months) for employees outside of Poznań.
